

# Suad AlMulla

**Founder of Surreal Space Studio  
Bachelors in Business Sciences**

An accomplished Emirati professional with a multifaceted career spanning banking and founder of Surreal Space Studio. Possessing a Bachelor's degree in Business Sciences with a specialization in Human Resources Management and a minor in Psychology from Zayed University.

I have always been passionate about transforming a place that I have to be in for most of the time, into a space which gives comfort, creating the coziest and most enjoyable space that is also practical, or convert a house into a home. This is something I have always wanted to do, and I am excited to share that this dream has come true. Visit our company to live your dreams like I did and turn your favorite space, whether at home or work, into a place you love.
